MORE TEACHERS ARE NEEDED FOR THE CITY SCHOOLS

Two more teachers are to be employed in the city schools. The increase in the force was authorized by the Board of education last night. It is necessary to meet the conditions created by the growing attendance. The total enrollment of pupils at the beginning of this week was 2,051, and

almost a week remains for further registration.

The board reduced the tuition for grade pupils from \$3 to \$2.50 a month. The Hahn Coal company was given the contract for coal at \$5.50 a ton for Cerrillos coal and \$3.50 a ton for anthracite lump to be delivered upon request of the board. O. J. Buford was given the contract for split cedar feed at \$5.15 a cord.

HICKEY TAKES ON BUSY JOB AS GRAND MARSHAL OF THE FAIR

Well Known Lawyer Will Assume Duty of Seeing That Events of Day's Program Move Smoothly and Fast.

GOVERNOR, PUTNEY AND PARTY ON THEIR WAY

Wiley Wires Denver Tent Makers Appalled by Size of His Order; Bringing Home the Usual Bacon.

The announcement that M. E. Hickey had been appointed grand marshal of the day for the state fair and that he had accepted the appointment was the news of chief interest emanating from fair headquarters today.

The office of grand marshal of the day is the one of chief importance connected with the actual conduct of the fair. Upon this official rests all the responsibility for the smoothness with which the various events come off, for he is in supreme charge of the fair grounds and is first in command of all the fair forces. All disputes of whatever character are referred to him for final adjustment and it is he who decides what is to be done and when.

The office of grand marshal entails the hardest kind of work and requires balanced judgment and a high order of talent. In casting about for the man possessing these qualities in the highest degree obtainable, the fair management had no hesitancy in selecting Mr. Hickey, and it is considered extremely fortunate that Mr. Hickey consented to serve in that capacity during the fair.

Party Off For San Juan.

President Putney, together with Governor McDonald, Superintendent of the Indian school, and D. A. Macpherson, left this morning on the California limited for Gallup, en route to Farmington and Shiprock. They were due to reach Gallup late this afternoon, and will ride nearly all night tonight in an automobile, reaching Farmington at an early hour tomorrow morning. They will spend tomorrow, the last day of the Farmington fair, in Farmington, and will leave Thursday for Shiprock where they will take in the Indian fair at that point and will arrange for the big Indian exhibit that is to be put on here in October. They expect to return to Albuquerque Saturday.

Bigest Tent Order on Record.

A wire received at fair headquarters today from Secretary R. W. Wiley, who is now in Denver, stated that the order for tents given for the New Mexico state fair was the largest ever received by the Denver tent manufacturers, and that it was hard for him to make the dealers understand that he really meant what he said while negotiating for the order. The cost of the tents alone for the one week of the fair will be more than twice hundred dollars.

Railroads Will Cooperate.

Mr. Wiley also stated in his telegram that an agent of the Denver & Rio Grande railroad had been sent into San Juan county to work up an excursion to the fair among the people of that county and that the Colorado Southern railroad had also sent a man into Union county for the same purpose. It is believed that at least a hundred excursions will come to the fair from each of those counties. While in Farmington Mr. Putney will co-operate with the railroad agent for the purpose of swelling the excursion from that point to the greatest number possible. Mr. Wiley left Denver today for Pueblo and will return to Albuquerque tomorrow night.

Special Bids to Dignitaries.

It has been decided that special invitations are to be extended by the fair management to all the state officials, to Senators Fair and Catron, Congressman Hernandez and to the judges and district attorneys of every judicial district in the state, to be present at the opening day of the fair and take part in a special opening program that is being arranged. Mr. Putney feels that if much as the effort is being made to make this a fair for all the people of the state it is nothing but reasonable to expect public officials, regardless of their locality or position, to come forward and help make the fair a success.

MANY PLEAD FOR LENIENCY TOWARD GUN-TOTER

Friends of M. Harris, including
Councilman, Don't Want Him Punished; Wilkerson to Recommend Clemency.

M. Harris, who was arrested Sunday

when Policeman Lojan overheard him
using alleged violent language toward
another man and turned out to be the
toter of a 45 Colt gun loaded to the
limit, was not arraigned in the city
court this morning. Another post-
ponement to 5 o'clock this afternoon
was granted. At that time it is ex-
pected that City Attorney Thomas
Wilkerson will enter a recommendation
for clemency in the case.

Harris told the police after his arrest
that he borrowed the gun of a friend
to kill a dog. Many friends, including
a member of the council, have interceded
for him. Judge Craig's usual course with gun-toters
is to send them to jail for sixty days
and his stand against carrying of
deadly weapons has been approved
throughout the city.

Complaint was sworn out today
against Porfirio Luero, who is
charged with having taken Jose M.
Barcia's car for a joy ride. The al-
leged offense is said to have been
committed September 3. He will be
heard tomorrow morning at 9 o'clock
in police court.
